(incoming)*

Expose of Arbenz drinking and morphine escapes. Should be in form of booklet inside G uat. ~~xxxxxxxxxx~~ Would be strictly character killing including fake photos. Got following ideas on how to develop material from two characters here at S.H.

Recommendations:

1. Send cable to [] to have ~~Bxxxxxxx~~ (sp?) an editor of CEUAGE, contact [] (fnu) an individual who does some radio scripts for ~~Bxxxxxxx~~ [] and get from him fullest details on past activities re: morphine parties, exact names, dates, places. Also if Arbenz still active in this type of life, then best info as to how and where ~~xxxxx~~ deals now taking place. ~~Rxxxxxxx~~ ~~Bxxxxxxx~~ ~~Gxxxxxxx~~ ~~Bxxxxxxx~~ ~~Bxxxxxxx~~ [] is a good source, since he [] who are in on the parties. Also have [] ask [] to include the material he has already written on this business together with additional info he can drain from []
2. Dispatch to Guat giving them the idea of what is wanted in a general way ie. concerted effort to get details on Arbenz heavy drinking morphine and girl orgies. Suggest that contact be made with [] at Estancia Canales. [] is mad at Arbenz, once gave him morphine in regular rides. [] himself is heavy drinker and is suggested our source get info after [] becomes mellow. Should be able to get info from [] when sober ~~xxxxxxx~~ if willing to risk fact he might blab later when stewed. Also can get details on Arbenz dope parties from [] (fnu) who has blood bank [] Guat City. [] in Guat City and from [] These last two are considered reliable anti Govt people by our friends here. [] might be used to get info from []
3. Other leads to Guat in same dispatch. Check fact that Arbenz used to go to Isla Iztapa (may still go) with chosen friends, Francisco Morazan, Carlos Brancmonte and Gregorio Prem ~~Bxxxx~~ Beteta. These replete with booze, dope and girls made the Isla really jump on those long week ends.
4. Also another lead is that the boys above have gone to an Estancia Santa Clara, either owned or operated by Arbenz on one of the leads in Para 3, for the hopped up outings.
5. After Guat checks these leads and [] sends up material, Linc can put together booklet including pix from phoney section showing shots taken on these dope parties. Friends say that anything goes on these parties. They claim that to start things off the boys take a bano, which is that they drive out to Santa Clara in their cars, windows rolled up tight, and with morphine ~~xxxxxx~~ burning in small cig trays. They arrive at scene of action in wonderfully preconditioned shape. No one has any special girl after they once get there--according to Commie tradition--and the show goes on until all are exhausted.
